1. Warm-Up (10 minutes)

- Scales (5 minutes):
  - Practice 2-3 major or minor scales (e.g., C, G, A Minor).
  - Play hands separately, then together.
  - Gradually increase tempo, focusing on even tone and finger positioning.

- Arpeggios (5 minutes):
  - Pattern 1: Root position, ascending and descending (e.g., C-E-G, G-B-D).
  - Pattern 2: Broken chord pattern with octaves (e.g., C-E-G-C in the right hand; C-G-E-G in the left hand).
  - Play each pattern hands separately, then together when comfortable.

2. Technical Exercises (10 minutes)

- Hanon Exercises (5 minutes):
  - What is Hanon?
    - Hanon exercises are a series of repetitive finger drills designed to improve finger strength, independence, and evenness. They are essential for building good piano technique.
  - Hanon #1:
    - Start with both thumbs on middle C.
    - Follow this pattern: C-D-E-F-G (right hand), mirrored in the left hand.
    - Slowly ascend and descend the keyboard, focusing on even tone and relaxed hands.
  - Hanon #2:
    - Start on C and follow the pattern: C-E-D-F-E-G, moving stepwise upward.

- Chord Progressions (5 minutes):
  - Progression: I-IV-V-I in the following keys:
    - C Major: C (root) -> F (2nd inversion) -> G (1st inversion) -> C (root).
    - G Major: G (root) -> C (2nd inversion) -> D (1st inversion) -> G (root).
  - Play hands separately first. Combine both hands when ready:
    - Left hand: Block chords.
    - Right hand: Arpeggios or broken chords.
  - Gradually increase speed, ensuring smooth transitions.

Bonus: Popular Arpeggio Patterns for Chord Finding and Improvisation

1. 1-3-5-3-1 (Classic arpeggio, ascending and descending)
2. 1-5-3-5-1 (Widens the hand, useful for spatial awareness)
3. 1-3-5-7-5-3-1 (Great for exploring 7th chords)
4. 1-5-8-5-1 (Octave practice with arpeggio structure)
5. 1-4-5-4-1 (Focuses on the 4th and 5th scale degrees for tension)
6. 1-2-3-5-3-2-1 (Melodic arpeggio with stepwise motion)
7. 1-3-6-5-3-1 (Explores the 6th, popular in jazz and pop)
8. 1-7-5-3-1 (Descending arpeggio starting with the 7th, good for voice leading)
9. 1-5-3-7-9 (Extended arpeggio with a 9th for improvisational use)
10. 1-3-4-5-4-3-1 (Focuses on neighboring scale tones for fluidity in improv)
